INDEX FOR 1983

A

America's spaceport: 25 years and rusting, May 1983, 5.
Artificial intelligence for Landsat, March 1983, 8.

B

Bottlenecks seen for space shuttle turnaround, December, 1983, 7.
Business graduates plan new shuttle stage, March, 1983, 29.
Business in space, Putting, November, 1983, 24.

D

Designing a home in space, June-July, 1983, 9.

E

Explorer series continuing, but at a reduced rate, January, 1983, 13.
Exploring space with balloons, October, 1983, 9.
Exploring stars at the Smithsonian, August-September, 1983, 22.

F

Faking zero-g: The K-bird, June-July, 1983, 29.
Faking zero-g: underwater, February, 1983, 4.
First getaway special—How it was done, The, May, 1983, 9.
Foreign Space Programs
- Canada, March 1983, 19.
- China. March, 1983, 25.
- Europe, March, 1983, 21.
- India, March, 1983, 16.
- Japan, March, 1983, 9, 14.

Future spacelab missions, October, 1983, 33.

G

Growing dinner in space may be cheaper than takeout, December, 1983. 22.

I

India's launch vehicle program moves ahead, December, 1983, 29.

J

Japan starts work on new launcher, December, 1983, 26.

K

Kennedy space center, April, 1983, 18; June-July, 1983, 35; November, 1983, 30.

M

Make way for private citizens, January, 1983, 4.
Mining the moon, February, 1983, 30.

N

NASA planning large telescope for X-ray astronomy, February, 1983, 22.
NASA's first 25 years, October, 1983, 25.
NASA's 5-year plan, November, 1983, 17.
NASA's 1984 budget: Space science moves up, April, 1983, 4.
New agenda for space, A, February, 1983, 16.
New directions to the planets, June-July, 1983, 21.

O

Observing the oceans from orbit, April, 1983, 22.

P

Paris air show, Face-off at, October, 1983, 4.
Power for spacecraft: The nuclear option, April 1983, 9.

R

Reagan aims for the high ground, August-September, 1983, 15.
Rx for space, March, 1983, 4.

S

Sarsat, Lives endangered by false alarms from, November, 1983, 22.
Satellites in trouble, August-September, 1983, 20.
Seeds in space, May, 1983, 18.
Shuttle derived vehicles, Variations on a theme:, December, 1983, 12.
Skylab plus 10 years, May, 1983, 21.
Soviet military power: A pentagon view, August-September, 1983, 4.
Space as a part of the renaissance in the technology, November, 1983, 29.
Space insignia, December, 1983, 24.
Space Personality
- Bubb, Mary, January, 1983, 9.
- Cannon, Howard W., Interview with senator, February, 1983, 12.
- Lawrence, Robert, December, 1983, 21.
- Smith, Dick, November, 1983, 10.

Space Shuttle
- Columbia readied to fly again, August-September, 1983, 31.
- Competitors and successors for the, August-September, 1983, 19.
- Crews, August-September, 1983, 25.
- Hail Columbia, February, 1983, 17.
- Main engine, Fixing the, November, 1983, 35.
- Meeting the challenges of, November, 1983, 4.
- Spaceship of the desert, June-July, 1983, 16.
- Spinoffs from, June-July, 1983, 19.
- SS Challenger, The first flight of, June-July, 1983, 4.
- STS-5, A personal interview of, February, 1983, 14.
- STS-5: "We deliver," January, 1983, 10.
- STS-6: Challenger's debut, January, 1983, 18.
- STS-6 landing, Writing the stuff: Covering the, October, 1983, 14.
- STS-7 mission report, October, 1983, 6.
- STS-7, Preview of, June-July, 1983, 32.
- STS-8, Change of plans for, August-September, 1983, 29.
- STS-8 Mission report, December, 1983, 4.

Space station gets cautious interest, few takers, November, 1983, 11.
Space stations: circa 1920s, June-July, 1983, 7.
Space telescope has spies in family tree, February, 1983, 21.
Space telescope's problems, October, 1983, 18.
Spacelab 1 readied for flight, June-July, 1983, 33.
Spartan draw bridge, A, January, 1983, 24.
Swigert's example, Jack, March, 1983, 6.
Switchboard for satellites, A, February, 1983, 26.

T

Trilateral program planned as first step in rebuilding space plasma physics at NASA, December, 1983, 9.

U

Upper atmosphere research satellite planned, December, 1983, 17.
USAF test program, May, 1983, 29.
U.S. space camp, February, 1983, 19.
U.S. space science—growing weak at 25, January, 1983, 20.

W

Wildlife abounds around the cape, March, 1983, 26.

Y

Yellow light for "citizen astronauts," August-September, 1983, 30.

INDEX FOR 1983

A

America's spaceport: 25 years and rusting, May 1983, 5.
Artificial intelligence for Landsat, March 1983, 8.

B

Bottlenecks seen for space shuttle turnaround, December, 1983, 7.
